FOREWARD

The lamp is a symbol of the spirit of nursing mingled with the responsibilities of a nurse as she carries out her daily work.

Is the lamp really heavy? Let a student nurse answer this question. She received her lamp when she put on the small white cap for the first time. She carries this lamp not only as a student but as long as she answers the call of human suffering.

At times the lamp *does* seem heavy, almost too heavy to carry. After many long and weary hours the flame grows dim, but a few words of encouragement even from an unsuspecting heart give her the courage to hold her lamp high and the flame again burns bright---illuminating the paths for others to follow.

The spark that kindles this flame comes in disguise. It comes through watching the miracle of a new life born, hearing a thank you or seeing a smile from the lips of a patient who yesterday was dying. All of these serve as a personal incentive to carry her lamp high and keep the flame bright.

Is the lamp really heavy? Never *too* heavy when one possesses the love for the profession which the lamp represents. Not when she realizes that she carries this lamp not only for herself but for God and her fellow man.

Throughout our 1960 Marionite, we hope to give you a glimpse of how we learned to carry our lamp in our preparation of nursing. As we enter our profession as graduate nurses, we will resolve that even if the lamp is heavy we will hold it high and keep it burning.

THE LAMP IS HEAVY

The lamp is heavy but a professional guide
A symbol of guidance - to nurse mankind.
A light of devotion in aiding the sick
By heavenly reward we will benefit.

The lamp seems heavy when our patient seems cross
And our kindness and patience seems at a loss.
The lamp then leads our professional hand
To help this patient the best we can.

The dying patient needs skilled technique
And often we must work with speed.
The lamp is heavy but by it we guide
The dying patient to Christ's side.

Though our lamp is heavy it enlightens the way
To many a joy through-out the days.
Of our nursing profession; the symbol a lamp
The wish which guides our professional hands.

When our lamp seems heavy and the light seems dim
And with all our patience we can't seem to win,
Picture Christ with His cross which was heavy too
Which He carried for us - both me and you.

His cross a symbol of His passion and death
Of His love for us, a guiding path.
Our lamp is a symbol which lights up our way
In aiding the sick and dying each day.

Sr. Raymond Marie, C.D.P.

With loyalty will I endeavor to aid the physician in his work, and devote myself to the welfare of those committed to my care.

SENIOR CLASS SPONSOR

"Graduation is not the ending. . It is just the beginning."

Patsy L. Erwin, R.N.

SENIOR CLASS HISTORY

The lamp is heavy. Only a nurse who has truly taken up the lamp can know what that tiny sentence means. To a nurse, it means respect and responsibility. In the past three years we have been learning to accept responsibility and earning respect. It has been hard for all of us but it has also been rewarding.

Remember when you first took up your lamp? That was the day you made your decision to be a nurse. For some of us we seemed to know all our lives but for others, it seemed to happen all of a sudden.

On September 2, 1957, we left the comforts of home to make decisions for ourselves. We met new faces, saw new places and assumed new responsibilities. Many new friends were made and they are friends with whom we hold many memories. Memories and friends never to be forgotten. These have taken their great place in upholding our lamp.

The six months seemed to fly by and soon we were transformed from "Probies" to Freshmen. Now we really felt like a nurse. We were wearing the crown of a nurse - her cap.

Six more months brought another change in our lives. We now carried the title "Juniors" and one year had gone by. During that time, the friendships which were made grew stronger, for now we had shared each other's joy as well as sorrows. This year also brought the time for affiliation. Our class was divided and sent to Louisville to see another side of nursing, that of Psychiatry.

The summer passed and with its passing came the reward of two years of hard continuous work. This being a plain and simple stripe of small black velvet ribbon. Our black band - Seniors at last! There were times when it seemed like it was a century away but now it was upon us. With our black bands came more respect and responsibility which by now we were ready to accept. It was really wonderful to be a Senior but it was a little hard to realize. The lamp, heavy as it was, began to be a welcome feeling. During that year we chose our yearbook staff and decided on a class graduation uniform. It was all very exciting. The last of the class went to Louisville and came back and now the class was back together again. Finally, we began to make plans for our graduation. It almost didn't seem possible that we could be ready to graduate but we were and it was a feeling too wonderful to describe.

Now we are ready to take the last big step and go out into the big wide world on our own. To some of us it is a great feeling, full of confidence. To others it is a feeling of security and to still others it is a challenge.

Each day the never ending process of learning continues. Even as graduates, at times the lamp will become heavy, but it will never be a burden.

SENIOR CLASS PROPHECY

As we look into the flame of the future issuing from the spout of our lamp, we see Judie Allen and Larry Marcum, as they plan for another addition to the family as well as to the trailer court. Believe me, if you need any information about trailers, please consult Marcum, Inc.

Across the street from Marcum's Trailer Court, we see a solitary girl brooding over her last broken engagement. But Carol Akers is not lonely. She now has a collection of karats that would make Tiffany's sell their stock.

Lift your eyes to the sky, if you will and you might chance to see Theresa Annie and Scottie Riffle in Boeing's latest brainchild flying in formation with their seven little children, each with their own little Piper Cub.

We just received a letter from Jenkins, Italy, where Carolyn Asbury now resides in a picturesque villa. She has recently organized the International League for Better Bridge. Goren is not the thing anymore, Asbury is the word. Her old sixth floor bridge buddies have organized a pilgrimage to visit her in order to learn her new finessing methods.

Marty Biggs, now assistant Administrator to Sister Florence, has been instrumental in the construction of the new "Honey Irons" Medical Center equipped with a swimming pool shaped like a bedpan.

Who is that red haired Ester Williams in the pool? It must be Mary Kay Campbell, taking a break from her strenuous duties as assistant night Supervisor.

Down in the kiddie end, we see the twelve Smith children as their proud parents, Patty Hoskins and Bob Smith are busily counting water wings and snorkles. "Punky" Dudding, her former roommate, still finds time from her busy social life to give Patty a helping hand with her brood. Punky is now O.R. Supervisor of Johns Hopkins Medical Center where she thoroughly enjoys her job.

We see a billboard near the pool advertising a lecture to be given by Evelyn Riley, President of the Anti-Planned Parenthood League. Evelyn has come a long way since she first stepped on the soapbox.

Marlene Nolan Gwinn does her public health Nursing from her motorized cockroach, a Volkswagen. She now has the city dumps in perfect order, and requests the populace to file their trash in an orderly manner when dumping it in the dumps-under her keen eyed auspices.

Katrine Rutledge Henthorne, Directress and Founder of the famous Psychiatric Institution appropriately named "The Shack" which caters only to the mental illnesses of the elite.

Leah Shafer Phillips has traded in her fraternity pin for a football managers' jacket. She is now Manager of Larry's pro team, the Catatonic Exciters. Of course, Leah takes care of the medical needs of the team.

No more day counting for Kay Simpson Butler. She now counts tow heads.

Little but loud, Nancy Murnahan Moeller, is now the asterick of the OSU campus. She is a member of the faculty between visits from the stork.

Delores Carter is still seeking answers from Abby Van Buren. If Abbey comes through her future will be - Mrs. Bob Kelly.

Sharon Cook, Assistant to Albert Sweitzer, has introduced television to the Mau Mau's. Her program is "Jungle Nursing in Twenty Easy Lessons."

Rev. and Mrs. Neal Koch (Ruth Ann Cummings) have now replaced Billy Graham abroad.

If you ever take a trip to Greenwich Village, drop down to "The Pad." Stevie Lang and Jum Murphy, head beats. This is the hangout for aspiring young revolutionists.

By the way, if you're going as far as the village, why not take a freighter to Istanbul, Turkey. Your cordial hostess and host will be none other than Drs. Toni and Fatin Onat. Their side line is breeding horses.

If a freighter is not the desired mode of travel, contact Ricky Akers and his charming co-pilotess, Pat Grinsell Akers. They've invested in Trans World Transportation, Inc. - with their ten little tax deductions.

For a dash of South American flavor, Brazil is the place to relax where Pat Hager Bernardes is the authority on care and sanitation of thatched huts.

Closer to the equator, we find Sweetie Cervantes, Gladys Croasdaile and Teresia Quan, operating their clinic for wayward Eskimos.

Admiral Byrd has nothing on Irma Ysaguirre and Tommy Goheen who own a flourishing penguin nursery for the Kool Commercials.

Our favorite Geisha girls, Amy Wang and Jean Wong are now medical instructors at the University of Ling Ting Tang.

Well what do you know? Another Goheen. Gay Potter Goheen and David have revived the ancient art of pearl diving in the South Seas with their own small crew of pearl divers.

Carolyn Humphrey Byers has conquered the Leathernecks. A familiar sight at the base hospital is Major Byers——not Don but Carolyn.

Leafing through the society pages we come upon Sally Garrett Shelton's name on the list of those departing for a European tour.

In a tall office building in New York City we find Bobbie Harbour Meadows and her assistant Guy fulfilling their life long ambition, psychoanalyzing the habits of chip munks.

Across the street from the Presidents palace resides Maybell Payne Tyree and Norman. They have formed their own Little Senate. The White House was never like this.

The Royal Mounted Police always get their man; but in this case, it's the other way around. It didn't take much trapping on the part of Virginia Pratt to snare her man, John L. Miller.

"Paging Dr. Mary Alice Mullen Hall," now chief of staff at Hall Memorial in Australia. Together she and her husband Dr. James Joseph Hall have conquered diseases prevalent in Kangroos.

Have you heard the latest political news? The U. S. Senate is in the middle of another filibuster. And who do you think is in the middle of it but Norris K. Hill, who has set a record--60 days and nights without stopping. She has nasal O₂ going.

Sr. Raymond, C. D. P. who is now world famous Neuro-Surgeon, and her assistant Sr. Lucille, C.D.P., now is an anesthetist are now doing great research work in the Ky. mounts on the treatment of creeping gunga. And who do you think their first patient was. . . you guessed it, Kathy Hull who contacted the disease from biting her fingernails.

Ruth Jones Goheen was recently elected President of the State Nurses Asso. but we suspect the Vice-Pres. will have to take over for awhile, since Ruth is expecting her 4th set of twins.

At the last state board exam we notice there were still a few girls from the class of '60 struggling to answer the questions. We won't mention any names, but Jill King Hysel, Diane Malloy, and Phyllis Legg Smith were among them. It is rumored they're going to get their R.N. for regular attendance.

Sheila Ours is now President of the A. S. S. (American Smoker's Society). Believe it or not she has figured out a way for tracheotomy patients to inhale!

Ruth Thompson is the star of a great hit on Broadway: "My Poor Lady." Her substitutes are the equally famous Carol (Butch) Simons, Mary M. Slayton, and Judy Stuart.

Sally Standifur has been elected the first woman President of the U.S. and has invited the class of '60 for their reunion after 10 long years of separation. Sounds exciting to have a reunion in the White House, doesn't it?

PRAAYER FOR A NURSE

Oh, my God: I am about to begin
the day's work.

Teach me to receive the sick in
Thy name.

Give to my efforts success, sweet
Jesus, for the glory of Thy Holy
Name.

It is Thy work: Without Thee I cannot
succeed.

Grant that the sick Thou hast placed
in my care may be abundantly
blessed and not one of them
be lost because of anything that
is lacking in me.

Help Thou me to overcome every
temporal weakness and strengthen
in me whatever may enable
me to bring the sunshine of joy
to the lives that are gathered
round me day by day.

Make me beautiful within for the
sake of Thy sick ones and those
lives which will be influenced by
them.

Amen.

WHAT IS A STUDENT NURSE?

Between the security of childhood and the insecurity of a second childhood, we find a fascinating group of humanity called Student Nurses. They come in assorted sizes, weights, and states of manic-depressives. They can be found anywhere; in service rooms, at Hearthstone's, in bed, on over-night leaves, in love and always in debt. Boys love them, patients tolerate them, and parents support them. A student nurse is laziness with a radio and a bed, bravery with a hypodermic syringe, and a protector of the world with a copy of Taber's Cyclopedic Medical Dictionary. She has the energy of a turtle, the slyness of a fox, the ingenuity of a hypochondriac, stories of a doctor, the sincerity of a liar, the aspirations of Florence Nightingale, and when she wants something it is usually someone else's clothes or to smoke someone else's cigarettes. Who else, but a student nurse, could wash and iron clothes, or fry onion rings at 12:30 at night? She is a mortal angel when asked by a doctor if a procedure has been done; a positive Florence Nightingale when the nurse checks rooms; a sweet little thing when her patient is a good-looking boy; or a sergeant at arms after visiting hours. She dislikes answering letters, wearing her uniform, head supervisors, chow, instructors and classes, campus, and getting up in the morning. No one person but a student nurse can put in one pocket; a little black comb, a tube of lipstick, candy from patients, and what is left of a month's allowance. She likes to spend some of her money on cokes, some on cigarettes and the rest foolishly. A student nurse is a magic creature, you can lock her out of your room but not out of your heart, you can scratch her off your list but not out of your dreams. You might as well give in, she's your long-away-from-home lover and your one and only good-for-nothing barrel of joy. All of your dreams become insignificant when your student nurse looks at you with those big round eyes and says----"Good morning sir, have you washed for breakfast yet?"

STUDENT COUNCIL AND SENATE

The student council and senate are the governing body of the school. It is made up of the Director, Sr. M. Celeste, two faculty members, class sponsors, class president, and two representatives from each class.

STAFF DOCTORS OF ST. MARY'S

St. Mary's Staff Doctors are among the finest in the country. They have given much of their time and knowledge to student nurses--by teaching the specialty courses, guiding and leading us to a better understanding of illnesses and their affect on each patient as an individual.

We are deeply grateful to them for their kindness. They will be remembered by each student nurse.

SENIOR FAREWELL

Three years of new experiences, trials, temptations, laughter and tears have made us what we are and hope to be in the future.

This is a joyful, long-awaited time, but it is also a time for sadness and tears; for we will be saying "so-long" to the wonderful friends we have made at St. Mary's. Our room-mates, suite-mates, bridge partners, T.V. buddies, closest friends and class-mates will all be going their separate ways.

In each of our hearts, we will always have a warm spot for St. Mary's and our many friends.

Let us not say "Good-by" or "Farewell", but instead let us say "God bless and keep you til we meet again."

Class President

Dear Evelyn,

After three happy glorious years of nursing as "students" we are now ready to take another step forward in the ladder of life. We have had a lot of fun together and also we have shed tears, but these are times we won't forget, not even years from now. Evelyn you have a wonderful personality and always a smile for everyone, and may God bless you with the best for you are so deserving.

Love
Kay (G.N.)

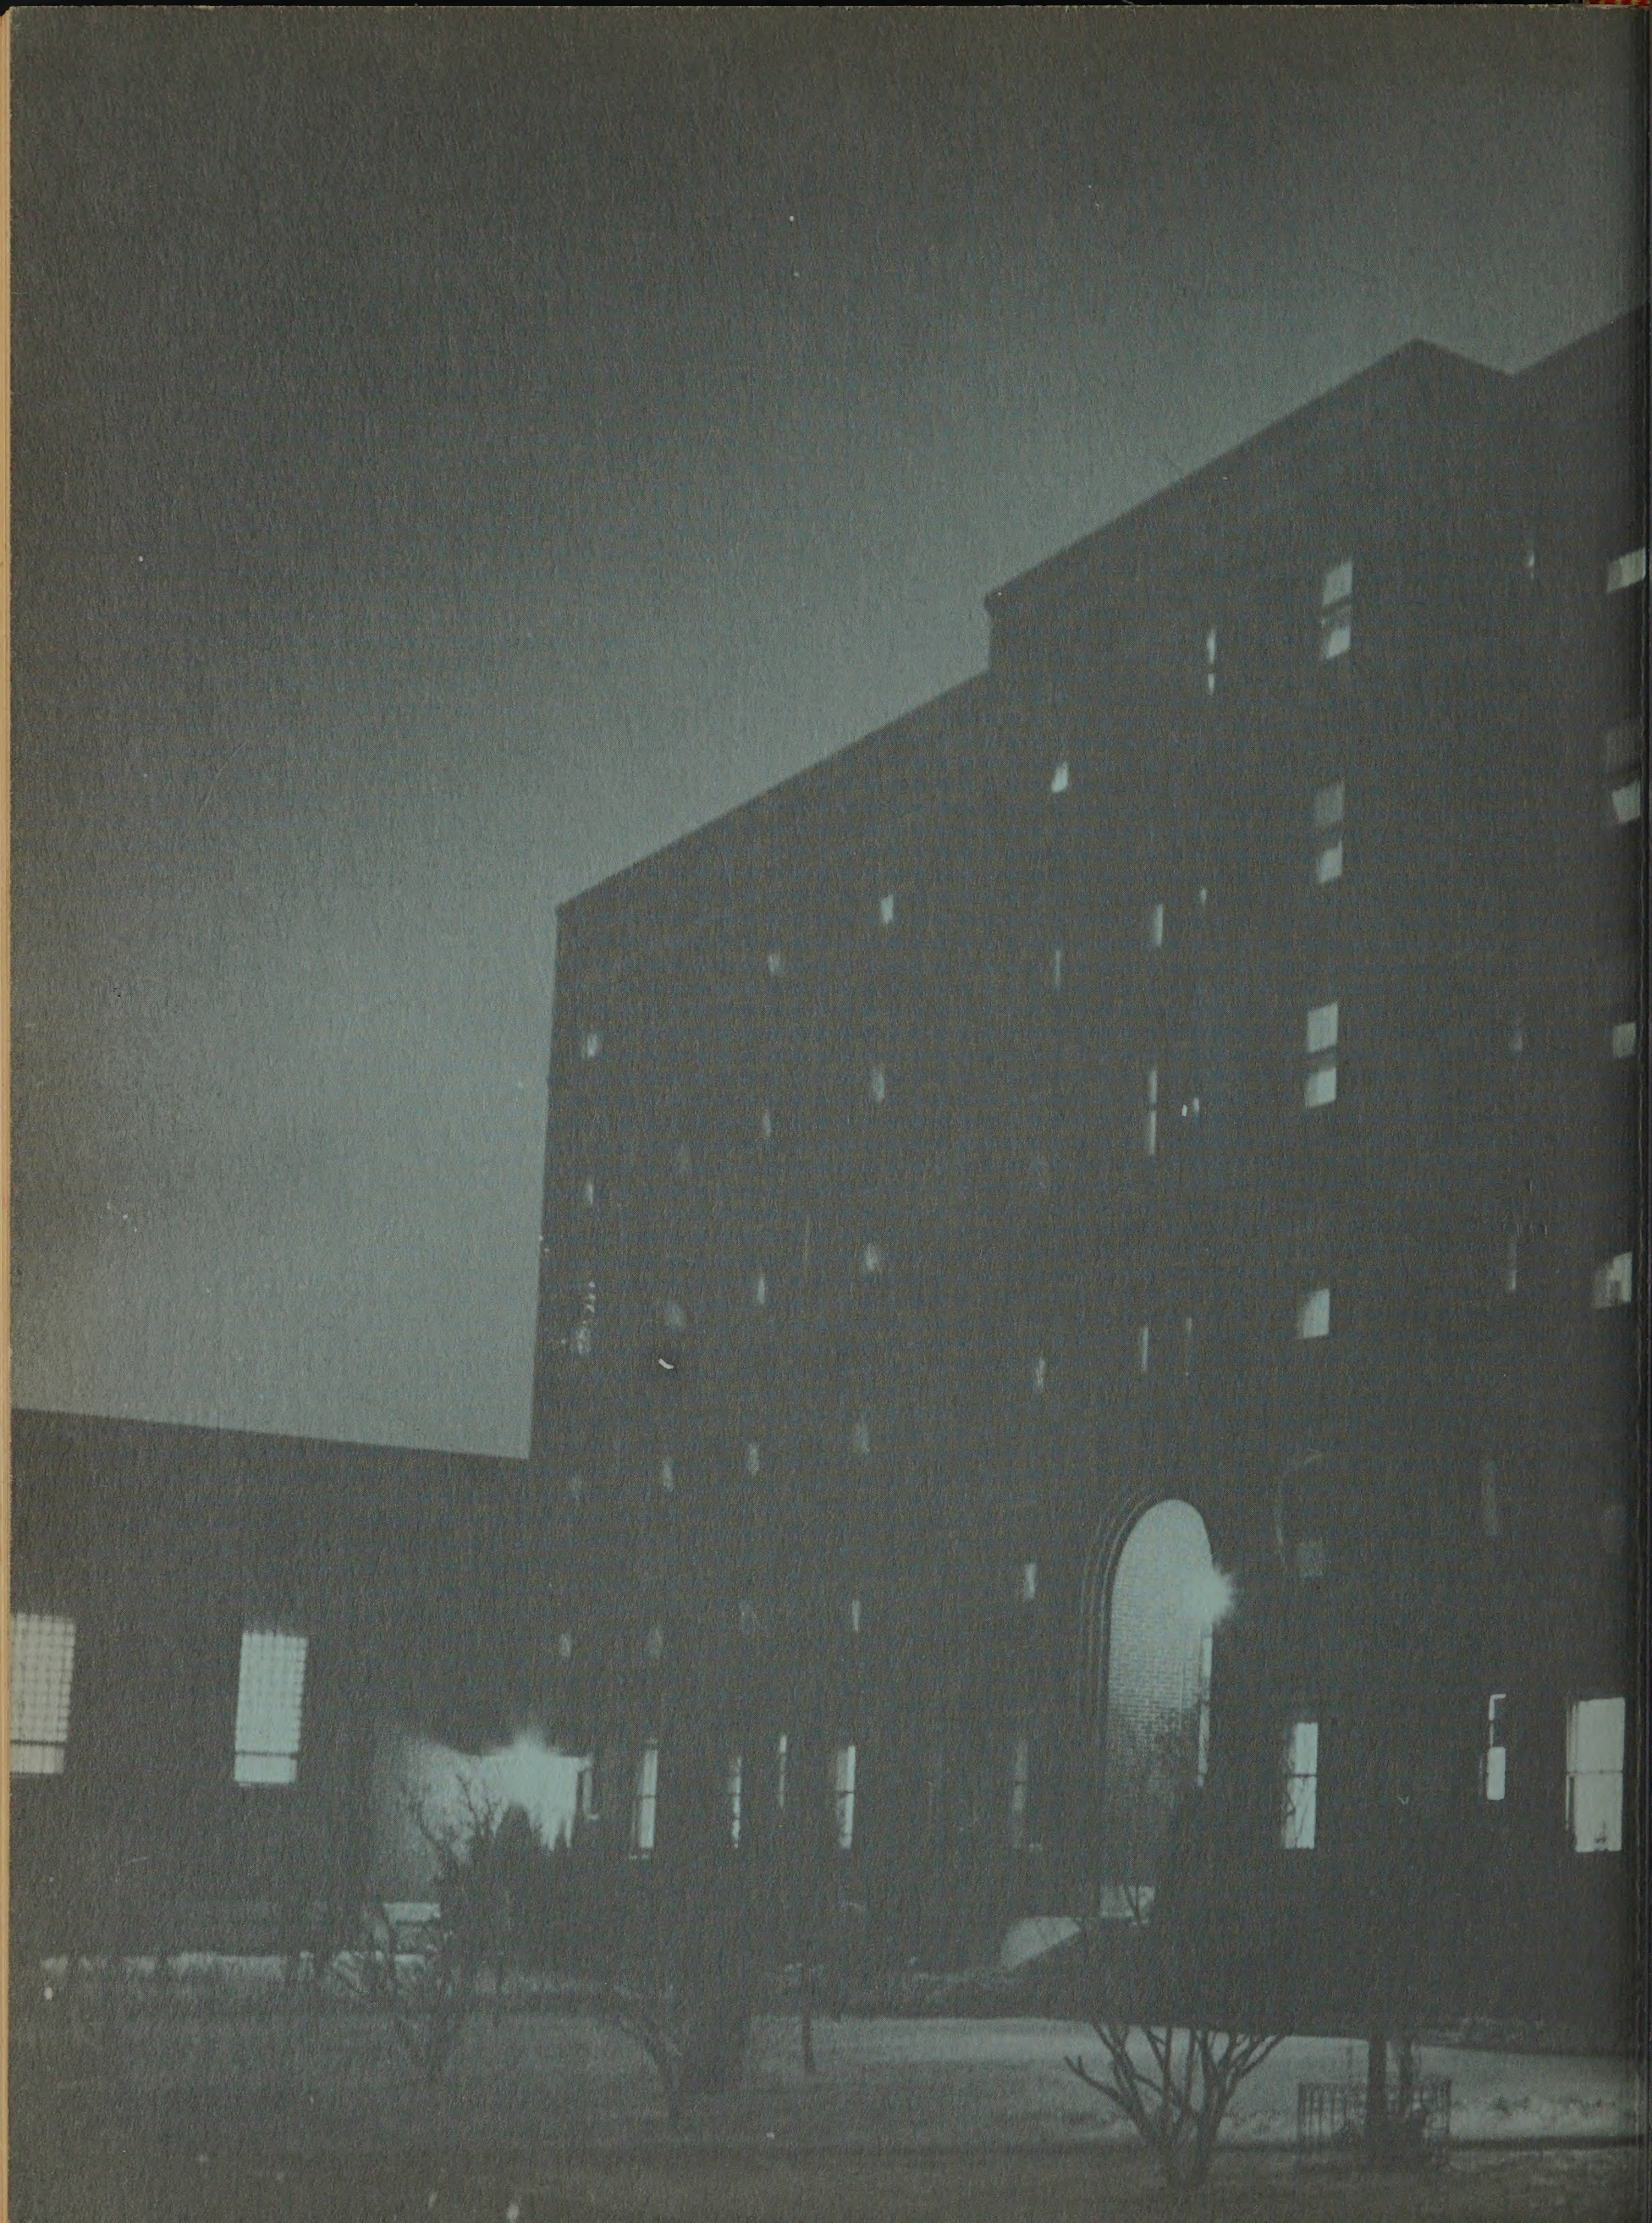

Evelyn,

Here it is, the time we've been looking forward to & dreaming of since the day we came in. It seems almost impossible that in a few days we will be graduated nurses. It's a sad time as well as a happy one & one I'm sure none of us shall ever forget.

I'm really going to miss you, Evelyn. It's been great having you as a "roomie". I shall never forget you or our wonderful times together. Thanks for putting up with my moods & keeping me & my heartbreaks.

Be good. I want to wish you the best of everything always because you do deserve the best. I will cherish the memories of you always. May God bless & keep you.

Say One For Me
Love ya,
Madame
